CENTRO DE 
 LEILÕES

YOUR AUCTION COMPANY'S PORTAL

Centro de Leilões

- Centro de Leilões is a portuguese electronic platform that aggregates a set of companies in the auction activity, both nationally and internationally.
- This platform was developed specifically for the professional auction market, with extensive experience in the sector, allowing to create a link between buyers, auctioneers and companies that intend to sell their assets.
- The Centro de Leilões Portal intends to stimulate the development of the auction activity, offering services that will allow you to boost your business.

Centro de Leilões + Revista de Subastas

- Founded in 2015, Revista de Subastas presents itself as the only multisectoral portal specialized in the dissemination of information on auctions in Mexico, positioning itself as the main medium with the greatest impact in this segment, at a regional level. With 7 years of experience in the market, Revista de Subastas is currently able to reach a large number of contacts from solid databases of end customers, which allow market penetration in any sector of activity, leveraging the conversion rate of your business.
- With its reference partner, Centro de leilões can go further, publicizing its opportunities in Portugal and Mexico, with a reach that can go up to 90,000 contacts.
- Try an auction disclosure, private negotiation or direct sale with us and receive a detailed report with the impact of our disclosure and the respective reach in terms of end customers.

Why participate?

- Quick, easy and transparent access to all auctions that take place at a national level (and some at an international level), providing reliable and up-to-date information on auction houses that advertise events on a recurring basis.
- Access to useful information about the auction sector in Portugal, opportunities, advantages and participation methodologies.
- Access to market strategies and complementary opportunities to the sector through IT tools that enhance the growth of your business in the sector.
- Access to experience and knowledge in the market.
- Access to databases segmented by company type: Industrial Goods; Real Estate; Vehicles; Machines; IT Equipment; Art.
